SKILLS

Technical Skills : CSS3, HTML5, RESTful APIs, MongoDB, Express.js, Node.js, Git, JavaScript

Soft Skills : Brainstorming, Problem Solving, Time Management, Mentoring, Effective Communication, Teamwork

PROJECTS :

Elysian Estate │ *Html, Css, JavaScript, Node.js, Express.js, MongoDB, Git, RESTful APIs*

- Built a responsive real estate web application using HTML, CSS, and JavaScript.
- Designed and developed key frontend pages: Sign-up/Login, Home, Favorites, Profile, Property List, and About Us.
- Implemented a search bar with city name suggestions for improved user experience.
- Added infinite scrolling to property listing pages for seamless browsing.
- Integrated add/remove favorite properties feature with heart icon toggle functionality.
- (Dynamic filtering feature is planned for future updates.)

TravelScout - Destination Recommendation Platform

React.js, Git, Node.js, Express.js, RESTful APIs, MongoDB, Cloudinary

Collaborated effectively with a team of four, ensuring cross-functional alignment and successful project delivery. Communicated project progress and technical challenges clearly with team members and stakeholders. Maintained strong organizational skills by managing version control through GitHub and creating clean documentation with Postman. Adapted to changing requirements, implementing secure JWT authentication and role-based access control. Contributed to a positive team culture by proactively addressing and solving technical problems.

Udemy-Clone - Online Learning Platform

JavaScript, React, Git, Node.js, Express.js, MongoDB, RESTful APIs, Tailwind CSS

- Collaborated effectively with team members to replicate Udemy's core functionalities, enhancing online course browsing and management.
- Implemented RESTful APIs using Node.js and Express for efficient course and user management, ensuring smooth user interactions.
- Utilized MongoDB to optimize data storage and interactions, improving the overall performance of the platform.
- Developed a responsive user interface using React and Tailwind CSS, ensuring an engaging user experience across all devices.
- Assisted in dynamic routing and state management, improving the flexibility and usability of the platform's features.
